

Security Advisory for WSO2 Governance Registry

WSO2-2018-0214

31-07-2018

Severity : Medium

CVSS Score : 6.5 (CVSS:3.0/AV:N/AC:L/PR:L/UI:R/S:C/C:L/I:L/A:L)

AFFECTED PRODUCTS

WSO2 Governance Registry	5.0.0 , 5.1.0 , 5.2.0 , 5.3.0
--------------------------	-------------------------------

OVERVIEW

It has been identified that users who login into the store application of WSO2 Enterprise Store and WSO2 Governance Registry can use same credentials to login into the Management Console.

DESCRIPTION

The registered users of WSO2 ES and WSO2 G-Reg are able to login to the Management Console. However, the features available in the console are limited unless the user has admin privileges granted.

IMPACT

The management console should be there only for administrators to access. If the management console is not restricted to be accessed at network level, the regular users would be able to login.

SOLUTION

The recommended solution is to apply the provided patch/update to the affected versions of the products.

For Patch Supported Products

Apply the following patches based on your product version by following the instructions in the README file. Please use your WSO2 support credentials to access the patch links.

WSO2-CARBON-PATCH-4.4.0-0799 [Download here](#)

WSO2-CARBON-PATCH-4.4.0-0808 [Download here](#)

WSO2-CARBON-PATCH-4.4.0-0810 [Download here](#)

WSO2-CARBON-PATCH-4.4.0-0811 [Download here](#)

Please download the relevant patches based on the products you use following the matrix below.

Code	Product	Version	Patch
GREG	WSO2 Governance Registry	5.0.0	WSO2-CARBON-PATCH-4.4.0-0799
		5.1.0	WSO2-CARBON-PATCH-4.4.0-0811
		5.2.0	WSO2-CARBON-PATCH-4.4.0-0810
		5.3.0	WSO2-CARBON-PATCH-4.4.0-0808

NOTES

We have already tested these updates/patches in-house. However, we strongly recommend you to test this in your development/test environments before applying to the production setups.

Thanks,

WSO2 Team
